

All for you – Sylwia Grzeszczak

Locked with the key or secret code,
How do I open your heart?
Who knows the way?
Who brings the light?
When my sun's going down
I'm losing my mind
Lost in this big void
All my power is drained
But I am not giving up
I will fight till the end
All for you (4×)
I dream about waiting for your call
King and Queen we're fit for this role
Please come with me
Do it for the show
I just really want to play this game
And won't let go
Lost in this big void all my power is drained
But before I am gone I just want you to know
No one but you babe Is so rich and so cool
So please let me in
And we will get to rule
All for you (4×)
Lost in this big void all my power is drained
But before I am gone I just want you to know
No one but you babe Is so rich and so cool
So please let me in
And we will get to rule
All for you
