

# And I – Dawid Podsiadło

The park, streets, your home  
Feel oddly empty  
I don't recall  
Your face smiling  
You try to act the same  
But hopelessly  
You are my place  
The place where I'm stuck in  
And I know that  
You saw me  
There in the crowd I stood alone  
Alone, alone, alone  
All of these beautiful memories  
Seem like a giant blur  
We were, we're not something more  
We're sick impossible to cure  
I'd like to be there on the same train  
That you are on  
But I know your love is  
For someone else to be owned  
And I know that  
You saw me  
There in the crowd I stood alone  
Alone, alone, alone  
And I know that  
You saw me  
There in the crowd I stood alone  
Alone, alone, alone  
Please leave me  
I don't want to be the reason of your pain  
So just leave me 'cause it's a thing we know  
Nothing is gonna change  
And I know that  
You saw me  
There in the crowd I stood alone  
Alone, alone, alone
